# Marine Engineering

VOLUME X.

JANUARY TO DECEMBER, 1905

MARINE ENGINEERING
INCORPORATED
17 BATTERY PLACE, NEW YORK, U. S. A.

83512

# INDEX.

**NOTE.—Illustrated articles are marked with an (*) asterisk.**

## ARTICLES.

| | PAGE |
|---|---|
| Allan line turbine steamers Victorian and Virginian | *359 |
| American Bureau of Shipping, Rules and Regulations of, abstracts from, 136, 178, 218, 261, 308, 352, 392 | 434 |
| Amerika, launch of the Hamburg-American liner | *276, 483 |
| Amsler's mechanical integrators. Cecil H. Peabody | *238 |
| Aragon, new steamer. Benjamin Taylor | *411 |
| Arctic ship Roosevelt | *193, 328 |
| Armored cruiser Argyll, engines of | *162 |
| Cochrane | *295 |
| Drake | *494 |
| Dupleix | *65 |
| Maryland, trial trip | *125 |
| Pennsylvania | *382 |
| St. Louis, launch of | *251 |
| Washington, launch of | *189 |
| Armored cruisers, alternate bid on | 77 |
| new | 302 |
| North Carolina and Montana, machinery of | *190 |
| Army vessel, type of | *383 |
| Auto boat (see Gasoline). | |
| Barge for General Navigation Company of Lake Geneva. L. Ramakers | *379 |
| 1,000-ton self-trimming | *380 |
| Barnard, United States Dredge | 420, 480 |
| Battle of the Sea of Japan, great naval | 293 |
| Battleship Connecticut, dock trials of | *457 |
| Dominion, steam trials of British | *26 |
| Kashima, new Japanese | *293 |
| Liberté, launch of | 253 |
| Mess' oudijeh | *209 |
| Minnesota, launch of | *251 |
| Mississippi, launch of | *467 |
| Nebraska, launching of | *233 |
| Ohio, speed trial | *469 |
| Battleships, launching of Kansas and Vermont | *429 |
| comparisons of recent | 501 |
| Bending moments, longitudinal, of lake steamers | 502 |
| Bennington, disaster to the | 389, 390, 439 |
| Bermudian, the new steamship | *229 |
| Best Ever, motor boat | *346 |
| Bilge-siphon shoes for high-speed vessels. George C. Stanley | *535 |
| Bravo, Mexican gunboat | *39, 520 |
| Bulkhead, construction on warships | 296, 505 |
| Bureau of Construction and Repair, report | 78 |
| Caledonia, machinery of the new Anchor liner. Benjamin Taylor | *301 |
| Caronia, the new Cunard steamship | *164 |
| Chain-cable joining shackle. A. Vollbrandt | *518 |
| Champerico, tug-boat | *77 |
| Chattanooga, the trial trip of | *57, 126 |
| Coast defense ships, German | *468 |
| Coast and Geodetic Survey steamer Pathfinder | *28 |
| Cochrane, armored cruiser | *295 |
| Comparisons of recent battleships | 501 |
| Connecticut, dock trials of the battleship | *457 |
| Continental, steamboat | *13 |
| Cornell, new tug-boat | 55 |
| Courses in marine engineering and naval architecture at Columbia University. Prof. Amasa Trowbridge | *280 |
| Crane, new 100-ton floating | *1 |
| Crown of Castile, steamship. Benjamin Taylor | *322 |
| Cruiser, the | 499 |
| Chattanooga, trial trip | *57, 126 |
| Cunard steamship Caronia | *164 |
| Curtis steam turbine, marine application of. | 506 |
| Dakota, Great Northern steamship, *248, 290, | 452 |
| Design and making of sails. Adrain Wilson. | *103 |
| Design of marine machinery. W. F. Durand. Part V. | *258, 306 |
| Design of shallow-draft boat driven by twin-turbine propellers. O. Lienau | *149 |
| Destroyers, French | *417 |
| Dieppe, launch of turbine steamer | *247 |
| Dominion, steam trial of H. M. S. | *26 |
| Drake, English armored cruiser | *494 |
| Dredge, Barnard | *420, 480 |
| government, for Delaware river | *460 |
| St. John, trial trip of the sea-going | *414 |
| Dry dock Dewey, self-docking steel floating. | *401 |
| floating, at Rostock | *242 |
| wooden floating, at Mobile | *464 |
| Dupleix, French armored cruiser | *65 |
| Eastland, high speed of | *42, 76 |
| Electric and pneumatic tools in shipbuilding. Frank C. Perkins | *69 |
| Electric steering control of ships | *18, 210 |
| Electrically-operated ore-unloading machines. Waldon Fawcett | *325 |
| Engine room of steamer Turbinia | *5 |
| Engineer's Yarn. W. J. Auten | 44 |
| Engineering personnel in the navy, 140, 252, 256, 361, 390 | 432 |
| Engines of English armored cruiser Argyll | *162 |
| Epochs in marine engineering. George W. Melville | 126 |
| Experiments at U. S. model basin, some recent. D. W. Taylor | *72 |
| Fall River line steamer Providence | *273 |
| Ferryboat propulsion, some problems in | 496 |
| Ferryboats for San Francisco harbor | *111 |
| New-York Staten Island service, | *35, 374 458 |
| Fire-boat G. H. Williams, of Portland, Ore. | *333 |
| Fishing boat Reaper | *345 |
| boats in San Francisco bay | *317 |
| steamer James M. Gifford | *452 |
| Flange-pipe connections, tests of | *341 |
| Floating crane, new 100-ton | *1 |
| Floating dock of the Aktien Gesellschaft "Neptun" Shipyard and Engine Works, of Rostock, in Mecklenburg. Karl Zublin | *242 |
| Floating dry dock Dewey, self-docking | *401 |
| Floating wooden dry dock at Mobile | *464 |
| Foreign types of fishing boats in San Francisco bay. E. N. Percy | *317 |
| French armored-cruiser Dupleix | *65 |
| destroyers | *417 |
| liner La Provence | *206, 315 |
| turbine-propelled torpedo boat | *43 |
| Gas engines on shipboard, producer. Bernhard A. Sinn | *7 |
| Gasoline auto-boat Veritas | *372 |
| boat, new | *347 |
| fishing-boat Reaper | *345 |
| launch Best Ever | *346 |
| launch Gregory | *335 |
| launch Hilda. L. Ramakers | *172 |
| auto-boat, new | *299 |
| auto-boat, new speed | *131 |
| auto-boat, 26-mile | *205 |
| pleasure and racing launch Nina | *419 |
| Generating sets of the Connecticut | *450 |
| George H. Williams, fire-boat of Portland, Ore. | *333 |
| German coast-defense ships | *468 |
| Globoid naval battery, Ultima | 502 |
| Great lakes register, rules and regulations, abstracts from | 472, 524 |
| Gregory, gasoline launch | *335 |
| Gunboat Bennington, disaster to | 389, 390 |
| Bravo, Mexican | *39, 520 |
| Hamburg-American liner Amerika | *483 |
| High speed of Eastland | *42, 76 |
| High-speed launches, problems in connection with | 510 |
| High-speed vessels, bilge-siphon shoes for. George C. Stanley | *535 |
| Hilda, automobile-boat. L. Ramakers | *172 |
| How to indicate the engine. George P. Pearce | *245 |
| Hulett ore unloaders at Lorain | *516 |
| Integrators, Amsler's mechanical. Cecil H. Peabody | *238 |
| International ocean yacht race, *114, 216, 257, 284 | 305 |
| James C. Wallace, superheated steam tests on steamer | *515 |
| James M. Gifford, fishing steamer | *452 |
| Kansas and Vermont, launching of two battleships | *429 |
| Kashima, new Japanese battleship | *293 |
| King Edward's new steam yacht | 487 |
| Kong Haakon, passenger and freight screw-steamer. Dr. Alfred Gradenwitz | *412 |
| Lake shipbuilding, recent developments of. Waldon Fawcett | *145 |
| Lake steamers, longitudinal bending moments of | 502 |
| La Provence, launch of the new French liner. | *206 |
| new passenger-steamer. L. Ramakers | *315 |
| Launch of armored-cruiser St. Louis | *251 |
| armored-cruiser Cochrane | *295 |
| armored-cruiser Washington | *189 |
| battleship Minnesota | *251 |
| battleship Mississippi | *467 |
| battleship Nebraska | *233 |
| French battleship Liberté | *253 |
| French liner La Provence | *206 |
| Hamburg-American liner Amerika | *276 |
| Italian steamship Siena | *367 |
| Japanese battleship Kashima | *294 |
| steamship Wm. E. Corey | *335 |
| turbine-steamer Dieppe | *247 |
| two battleships Kansas and Vermont | *429 |
| Laws of variation of resistance of ships. D. W. Taylor | *286 |
| Liberté, launch of French battleship | *253 |
| Line and engineer corps of the navy, wisdom of the amalgamation of | 252 |
| Lloyd's register of shipping, abstracts from rules and regulations. H. S. Taft | 48, 92 |
| Log book of a whaler | 323 |
| Log of a liner | *368 |
| Longitudinal bending moments of lake steamers | 502 |
| Lubrication on marine engines, talks on | 174 |
| Machinery for the Arctic steamer Roosevelt | *328 |
| maintenance in merchant ships. Robert Haig | *154 |
| of armored-cruisers North Carolina and Montana | *190 |
| of Anchor liner Caledonia | *301 |
| of Great Northern steamship Dakota | *290 |
| Maheno, Pacific turbine steamer | *489 |
| Manhattan, trial trip of ferryboat | *458 |
| Manxman, turbine steamer | *487 |
| Marine application of Curtis steam turbines. | 506 |
| steam-turbine development and design | 507 |
| Marine engineering, epochs in. George W. Melville | 126 |
| useful Scotch data | *453 |
| and naval architecture courses at Columbia University | 280 |
| Marine feed cleaners, insufficiency of. Dagnino Attilo | 346 |
| machinery, design of, Part V. W. F. Durand | *258, 306 |
| work, Southern Pacific Company in | *364 |
| Maryland, armored cruiser, trial trip | *125 |
| Merchant marine. G. W. Dickie | 447 |
| Commission report | 87 |
| Merchant ships, maintenance of machinery in. Robert Haig | *154 |
| Mess' oudijeh, Turkish battleship | *209 |
| Mexican gunboat Bravo | *39, 520 |
| Minnesota, United States battleship, launch of | *251 |
| Mississippi, another battleship launched | *467 |
| Model propellers, results of tests of | 498 |
| Montana and North Carolina, machinery of new armored-cruisers | *190 |
| Motor boats. Dr. William F. Durand, *278, 319, 385, 415, 456, | 490 |
| Motor boats—See also gasoline boats. | |
| Naval architecture. Sir Wm. H. White | 11, 80 |
| and marine engineering courses at Columbia University | *280 |

Nebraska, launching of the United States battleship ..... *233
Nina, an interesting pleasure and racing launch. L. Ramakers ..... *419
North Carolina and Montana, machinery of the armored-cruisers..... *190
North Sea steam trawler.....*66, 303
Note from Japan, a..... 502
Notes on the calculations of size of rudder stocks. J. W. Clary..... *406
Ocean race, how a 90-footer behaved in an... 510
Ocean yacht race.....114, 216, 257, 284, 305
Ohio, speed trial of battleship..... *469
Oil fuel as compared with coal..... 175
Openings in United States Navy..... 345
Ore-handling machines electrically operated.. *325
Ore unloaders at Lorain, Hulett..... *516
Oyster-boat Stranger ..... *205
Pacific turbine-steamer Maheno..... *489
Paddlewheel yachts ..... *322
Panama canal ..... *265
Patents, selected marine, 56, 101, 144, 187, 228, 272, 313, 358, 399, 442, 481,..... 537
Pathfinder, Coast and Geodetic Survey steamer ..... *28
Pennsylvania, three generations of the..... *382
Pneumatic and electric tools in shipbuilding. Frank C. Perkins..... *69
Powering ships. Edwin Cerio..*21, 82, 121, 152
Practical points about the screw propeller. W. F. Durand.....*14, 58, 115, 168
Princesse Elisabeth, Ostend-Dover steamer.. *488
Producer gas engine on shipboard. Bernhard A. Sinn ..... *7
Propeller experiments at U. S. model basin. D. W. Taylor..... *72
Providence, Fall River line steamer..... *273
Reaper, motor fishing-boat..... *345
Recent developments of lake shipbuilding. Waldon Fawcett ..... *145
Recent turbine steamers..... *487
Reconstruction of the Turkish fleet..... *208
Refrigerating plants on new United Fruit Company's steamers ..... *201
Registration of trade-marks..... 388
Report of bureau of construction and repair. 78
merchant marine commission..... 87
Resistance of ships, laws of variation of. D. W. Taylor ..... *286
Roosevelt, Peary's latest Arctic ship...*193, 328
Rudder stock, notes on calculations of size of *406
Rules and regulations of the American bureau of shipping, abstracts from. H. S. Taft, 136, 178, 218, 261, 308, 352, 392, 434
great lakes register, abstracts from. H. S. Taft .....472, 524
Lloyd's register of shipping, abstracts from. H. S. Taft.....48, 92
Russian volunteer fleet steamers. Frank C. Perkins ..... *300
Sailing yacht stability calculations..... *198
Sails, design and making of. Adrian Wilson ..... *103
St. John, sea-going dredge, trial trip of..... *414
St. Louis, armored-cruiser, launch of..... *251
San Francisco harbor ferryboats..... *111
Scantling regulation in yachting..... 511
Scout-cruiser Sentinel ..... *363
Scout-cruisers, the new United States....37, 254
Screw propeller, practical points about the. W. F. Durand.....*14, 58, 115, 168
Screw propellers, experimental researches on the performance of..... 498
Shackle, chain-cable joining. A. Vollbrandt.. *518
Shallow-draft boat driven by twin turbine propellers. O. Lienau ..... *149
Shipbuilding in Scotland in 1904. Benjamin Taylor ..... 212
recent development of lake. Waldon Fawcett ..... *145
Ship-loading device, electrically-operated. F. C. Perkins ..... *379
Shop economics. Theodore Lucas..... 376
Siena, launch of the Italian twin-screw steamship. Dagnino Attilio ..... *367
Society of Naval Architects and Marine Engineers, thirteenth annual meeting of..... 495

Soo canal, semi-centennial of..... *337
Southern Pacific Company in marine work. W. H. Crawford and T. B. Burnite..... *364
Specifications, uniform. W. D. Forbes..... 68
Speed launch ..... *131
Speed trials, methods of conducting..... 511
Speed trials of gasoline launch Ludo..... 511
Stability calculation for a modern sailing yacht ..... *198
Staten Island ferryboats.....*35, 374, 458
Staybolt diagram. H. S. Britt..... *413
Steamboat Continental ..... *13
shallow-draft, driven by twin-turbine propellers ..... *149
Steam boiler troubles, some notes on..... 504
Steamer Aragon ..... *411
Dieppe, launch of turbine..... *247
Eastland, high speed of.....*42, 76
James C. Wallace, superheated steam tests on..... *515
James M. Gifford, fishing,..... *452
Kong Haakon ..... 412
Pathfinder, Coast and Geodetic Survey... *28
Providence, Fall River line..... *273
Turbinia, engine room..... *5
Viking, turbine-driven ..... *443
Steamers, new Thames passenger..... *214
Russian volunteer fleet..... *300
Steamship Amerika, Hamburg-American, *276, 483
Bermudian ..... *229
Caledonia, machinery of..... *301
Caronia, new Cunard..... *164
Wm. E. Corey, launch of..... *335
Crown of Castile..... *322
Dakota, Great Northern.....*248, 290, 452
La Provence, French.....*206, 315
Minnesota, telephones on Great Northern *119
Roosevelt, Peary's Arctic.....*193, 328
Siena, launch of Italian..... *367
Victorian and Virginian, turbine..... *359
Steam turbines for British navy..... 37
Curtis, marine application of..... 506
marine, development and design..... 507
Steam yacht on Yellowstone lake..... *520
Steering control of ships, electric.....*18, 210
Stern post and heel piece of warships. Edwin Cerio ..... *207
Stranger, oyster-boat ..... *205
Strength of watertight bulkheads, notes on.. 505
Superheated steam tests on steamer James C. Wallace ..... *515
Telephones on Great Northern steamship Minnesota ..... *119
Tests of cold-rolled flanged-pipe connections, Luther D. Lovekin..... *341
Thames passenger steamers, new..... *214
Thirteenth annual meeting of the Society of Naval Architects and Marine Engineers.. 495
Tools in shipbuilding, electric and pneumatic. Frank C. Perkins..... *69
Torpedo boat, French turbine-propelled..... *43
Trade-marks, registration of..... 388
Trawler, North Sea steam..... ..*66, 303
Trial, speed, of battleship Ohio..... *469
Trial trip of ferryboat Manhattan..... *458
sea-going dredge St. John..... *414
armored-cruiser Maryland..... *125
Chattanooga .....*57, 126
Trials of H. M. S. Dominion..... *26
United States battleship Connecticut. H. P. Norton..... *457
Tug-boat Champerico ..... *77
Cornell, new ..... 55
Wm. E. Cleary and J. H. Williams..... *236
Turbine-propelled French torpedo boat..... *43
Turbine-steamer Dieppe, launch of..... *247
Victorian and Virginian..... *359
Viking ..... *443
Turbine steamers, recent..... *487
Turbines, steam, for British navy ..... 37
Turbinia, in the engine room of the steamer. *5
Turkish fleet, reconstruction of..... *208
Ultima, globuloid naval battery..... 502
Uniform specifications. W. D. Forbes..... 68
Useful data of Scotch marine engineering practice. H. Wilkes ..... *453
Valve diagram with Meyer cut-off..... 44

Ventilating fans and pipes, experiments with. 496
Veritas, new auto-boat..... *372
Vermont, launch of battleship..... *429
Victorian and Virginian, Allan line turbine steamers. Benjamin Taylor ..... *359
Victorian, turbine steamer, engine room..... *490
Viking, turbine-driven steamer. L. Ramakers ..... *443
Voyage of steamship Dakota from New York to Seattle ..... 452
Warrant machinist, position of; his duties and opportunities in the navy. W. M.... 361
Warship construction, activity in..... 521
Washington, launch of the United States armored-cruiser ..... *189
Watertight bulkheads, strength of..... 505
Whaler, log book of..... 323
Wm. E. Cleary and J. H. Williams, tugboats ..... *236
William E. Corey, launch of..... *335
Yacht race, ocean.....114, 216, 257, 284, 305
Yachting, scantling regulation in..... 511
Yachts, paddlewheel ..... *322
Yellowstone lake, steam yacht on..... *520

## BOOK REVIEWS.

Alternating Current Machinery. Wm. Esty. 270
Application of Graphic and Other Methods to the Design of Structures. William W. F. Pullen ..... 480
Art of Generating Gear Teeth. Howard A. Coombs ..... 225
The Automobile Pocketbook. E. W. Roberts. 270
Beeson's Marine Directory of the Northwestern Lakes. H. C. Beeson..... 357
Boiler-Room Chart. George L. Fowler..... 225
Bureau Veritas: List of Merchant Shipping.. 536
Business Features of Engineering Practice. A. C. Humphreys..... 270
Centrifugal Pumps, Turbines, and Water Motors, Innes ..... 142
Class Book of Naval Architecture. W. J. Lovett ..... 226
Cyclopedia of Applied Electricity. American School of Correspondence..... 186
Dimensions of Pipe Fittings and Valves. Browning ..... 185
Engineers of America..... 72
Experimental Researches on the Flow of Steam Through Nozzles and Orifices. A. Rateau ..... 270
Faulty Diction ..... 535
Ferric and Heliographic Processes. George E. Brown ..... 226
Gas-Engine Design. Charles E. Lucke..... 270
Gas Engines and Launches; Their Principles, Types, and Management. F. K. Grain.... 399
Gas Engines and Producer-Gas Plants. R. E. Mathot ..... 270
Gruppeneinteilung fuer die Gewicht und Kostenberechnung von Schiffen. Meyer..... 100
Marine Engines and Boilers. Leslie S. Robertson ..... 271
Maxwell's Theory and Wireless Telegraphy. Vreeland ..... 185
Mechanical Appliances, etc. Hiscox..... 100
Mechanical Handling of Material. G. F. Zimmer ..... 398
Mechanical World Pocket Diary and Year Book for 1905..... 100
Mechanical World Pocket Diary and Year Book for 1906..... 536
Mechanics of Air Machinery. J. Weisbach and G. Hermann..... 313
Modern Battleship ..... 100
Nautical Technical Dictionary for the Navy. 399
Naval Constructor. Simpson..... 185
Naval Fleets in 1904. De Balincourt..... 99
Naval Pocketbook. Sir W. L. Clowes..... 440
Panama Canal ..... 536
Planer Kinks for Planer Hands, Practical... 536
Practical Perspective. Richards and Colvin. 357
Record of American and Foreign Shipping, 99, 142
Report of Merchant Marine Commission.... 226
Self-Propelled Vehicles. Homans..... 99
Shipping World Year Book. E. R. Jones.. 398
Smit & Zoon..... 441
Steam Power Plant Data Book..... 536

PAGE

Steam Engine. R. C. H. Heck..... 225
Steam Turbine. Dr. A. Stodola..... 226
Story of Noah's Ark..... 536
Suction Gas. Haenssgen..... 186
Text Book of Marine Engineering. A. E. Tompkins..... 226
Text Book of Naval Engines and Machinery. John K. Barton..... 270
Time Chart of the World. Spon & Chamberlain..... 225
Transactions of Institute of Naval Architects. 535
Transmission of Heat Through Cold Storage Insulation. Charles P. Paulding..... 480
Types and Details of Bridge Construction. Skinner..... 142
Wireless Telegraphy. Maver..... 142

**COLLISIONS, REPAIRS, WRECKS.**

Amstelstroom in collision..... *110
Burning of the steamer Mohawk..... *348
tow-boat Defender..... *349
Chamois, British destroyer sinks..... *39
Collision between Kentucky and Exeter City. *347
on the Clyde..... *167
Damage to the City of Everett..... *396
Dealing with a broken crosshead bolt..... 132
A few collisions..... *78
Inverick, steamship, in collision..... *11
Königin Luise, accident to the. W. Kirchberger..... *519
Martello, serious collision of..... *42
Mishap to the Zambesi..... *348
Rapid repair work on the Majestic..... *466
Repairs to the steamship Oakwood..... *396
Shawmut..... *204
Victim of a floating mine at Wei-Hai-Wei... *68
Welding break in stern frame of steamship Apache..... *418

**EDITORIALS.**

American merchant marine, 90, 135, 216, 257, 305, 470, 522..... 523
Convention notes..... 522
Development of the marine turbine..... 351
Disaster to the Bennington..... 390
Engineers in the navy.....256, 390, 432, 470
Japanese naval victory..... 304
Lake shipping of the United States..... 350
Marine machinery .....177, 257
Motor boats .....256, 304
Naval appropriations ..... 134
architecture and marine engineering progress..... 41
conflict in the far east..... 216
New era in steam navigation..... 176
New York motor-boat show..... 176
Our English edition..... 522
Screw propeller, the.....91, 177
Serious menace to navigation..... 217
Shipbuilding ..... 391
Some more appreciation of the situation..... 305
Transatlantic yacht race.....216, 257, 305
Year's shipbuilding ..... 40

**ENGINEERING SPECIALTIES.**

Ash ejector, hydraulic. Marine Manufacturing and Supply..... *313
Augur, a new square. American Pressed Steel ..... *269
Balance cylinder. Lovekin-Thom..... *222
Bearing metal, new. Buda Foundry..... *311
Blower outfit. American Blower Co..... *529
Blower outfit. Northern Electrical..... *530
Blower, steam flue. Diamond..... *356
Boat-launching gear. Spalding ..... *398
Boiler-scale destroyer. Hull Boiler Fluid Company ..... 98
Boiler skimmer, Buckeye..... *268
Boilers, marine. Kingsford Foundry..... *534
Bushing, Bard adjustable. Armstrong Mfg. Co. ..... *356
Capstan, new steam. Marine Iron Works... *355
Condenser, new surface. Blake..... *268
new surface, Ljungstorm..... *397
Crank-shaft forming machine. Espen-Lucas. *529
Dinghy, new power. Mullins..... *357
Engine, gasoline, Excelsior. D'Este..... *184
gasoline. Lacy ..... *183

PAGE

Engine, new type, two-cycle. Racine Boat... *311
new vertical high-speed. American Blower ..... *45
Svea Caloric ..... *356
two-cycle marine. Lawrence ..... *222
Wizard marine gasoline. Temple Pump. *223
Fire extinguisher. Babcock ..... *397
Flue blower, steam. Diamond..... *356
Flue welder, McGrath. Draper Mfg..... *356
Forgings, marine. Sizer Forge Co..... *479
Furnace door, hot blast. James Reilly Repair ..... *269
Gasoline-propelled canal boats. Clifton. ... *529
Gauge cock. G. W. Neff & Co..... *532
Generating set, new marine. Sturtevant. *183, 268
Grinder or sander, portable electrical. Hisey-Wolf .....*46, 312
Hoist, electric. General Pneumatic..... *184
Hose coupler. Chicago Pneumatic..... *479
Hose coupling. Cleveland Pneumatic Tool.. *530
Indicator for gas engines. American Steam Gauge ..... *224
Indicators, improved detent motion. American Steam Gauge..... *98
Jorgensen clamp. Adjustable Clamp Co.... *479
Life-boat handler, automatic safety. Barcus-Hallam ..... *439
Lubricating pump, force feed. Hills-McCanna ..... *531
Magnets, electro-lifting. Electric Controller ..... *140
Mercury arc rectifier. General Electric.... *225
Motor, fluid, Werner..... *440
for boats. Raabe ..... *222
grinding and buffing. Lamb Electric.... *355
Hoffman ..... *142
Knox marine. Camden Anchor..... *224
Oil rivet forges. Tate, Jones & Co..... *478
Packing, Cook's metallic..... 311
Pipe-bending machine. Pedrick & Smith.... *185
Pipe-threading machine. Wells..... *47
Piston valve. Stayman..... *398
Pneumatic hammer. Helwig Mfg. Co..... *533
Pressure regulators. Foster Engineering Co. *531
Propeller, reversible. Spaulding..... *313
Punch, Marchant new process..... *533
Range, galley. Elisha Webb & Son..... *141
Ratchet drill. Billings & Spencer..... *534
Saw filer. New Britain Machine Co..... *533
Screw driver, sensible. Vanderbeek..... *47
Sheet piling, new. U. S. Steel Piling..... *312
Speed recorder, electric. Monitor..... *183
Steam, gas, and compressed-air meter. Sargent ..... *478
Testing department. B. F. Sturtevant Co... *532
Universal joint, adjustable, self-oiling. Baush Machine Tool..... *312
Valve, quick-opening radiator. Crane..... *530
Valve, Lunkenheimer generator..... *532
Valves, regrinding. Lunkenheimer ..... *440
Water gauge, shallow automatic. Haines.... *355
Watertight door emergency station. "Long-Arm" ..... *478
Wrench, ideal chain. Kroeschell..... *533
Wrench. Trimo ..... *222

**QUERIES AND ANSWERS.**

Arrangement of air, feed, and circulating pumps for steam launch..... 187
Balancing four-crank, triple-expansion engine. 271
Boiler riveting ..... *143
zincs ..... 441
Coal consumption of Kaiser Wilhelm II.... 55
Compression and explosive force in gasoline engine ..... 480
Cooling surface of outboard keel condenser.. 227
Design of four-cycle marine gasoline engines. 313
two-cycle gasoline engine..... 441
Determining of economical speed of ships.... 357
Displacement, buoyancy, and stability of a sailing yacht ..... 227
Effect of cut-off in low-pressure cylinder.... 56
on indicator diagram of faulty setting and leakage of valve..... *186
Expansion bends in steam pipes..... 537
Feed-water heating in steam space of boiler.. 55
Ferryboats with paddlewheels separately operated .....187, 227
Flywheel rim for gasoline engines..... 536
Forms of ahead and backing sides of screw propeller ..... 227
Horsepower as dependent upon current or tide ..... 228
Horsepower of gasoline engines..... 143
Light-draft boat with screw tunnel..... 186
Meaning of ship's coefficients..... 480
Paddlewheel design ..... 228
Point of cut-off for given expansion results.. 271
Polishing processes in U. S. Navy guns..... 271
Power of shafting..... 228
Powering and coal consumption of large tugs. 357
of barge ..... *100
Pressure of ships upon bottom of water in which they float..... 442
Proportioning of air pumps in marine engines 227
Propulsion and propeller of a 30-foot launch. 55
34-foot flat-bottom boat..... 227
Propulsive coefficient for auto boat..... 536
Resistance of auto boats at speed..... 536
Screw-propeller constants and variables..... 537
Stress on boiler seam..... 442
Torsional strength of Tobin bronze shafting. 536
Tractive power of ocean liner compared with tugs of same total horsepower..... 101
Use of slide valves on engines..... 227
Worm wheels and gears..... 143
Zincs in boilers..... 441
